### Education

Hitotsubashi University

4/2023 – Present

**Bachelor of Social Data Science | Specialization:** *Statistical and Computational Applications in Social Sciences*

- Established a robust analytical and technical foundation through rigorous coursework in Mathematics, Statistics, Programming, and Social Sciences, including Finance, Sociology, and Business Administration.
- Gained expertise in practical methodologies through hands-on coursework in Applied Machine Learning, Database Systems, Regression Analysis, Causal Inference, Microeconomics, Macroeconomics, Marketing, Finance, and Financial Engineering, applying theoretical concepts to real-world challenges.
- Strengthened mathematical proficiency through self-study of complex function theory and active participation in independent study groups that focused on differential equations, enhancing advanced analytical skills.
- Developed and implemented an interview methodology to engage with elderly individuals, gathering firsthand insights that contributed to a group project on transforming daytime bars into community spaces in Kunitachi City, thereby fostering social inclusion and revitalizing the local community.

Azabu Junior and Senior High School

4/2017-3/2023

- Showcased advanced piano skills through solo performances, violin ensembles, four-hand duets, and two-piano collaborations in school concerts and cultural festivals.
- Facilitated cross-cultural exchange by hosting Canadian students from Shawnigan Lake School and participating in sustainability-focused simulation games, an experience that cultivated a diplomatic and inclusive mindset, fostering a deeper appreciation for diverse perspectives and global collaboration.

### Extracurricular Activities

**Hitotsubashi University Athletic Boxing Club**

- Competed in three official boxing tournaments.
- Designed and led a training program for international exchange students, fostering cultural exchange with peers from Canada, Austria, and the UK.

### Music Performance

- Successfully performed Chopin's *Étude Op.10 No.1* and Liszt's *Widmung*. 4/2023
- Delivered a compelling interpretation of Chopin's *Ballade No.1*, demonstrating artistic growth and technical mastery. 4/2022

## **Skills**

- **Programming:** Proficient in Python and R; developed a memory-enhancing application using Streamlit and Python.
- **3D Modeling:** Passionate about CG modeling using Blender; created steam locomotives, grand pianos, and VR coaster structures.
- **Languages:** Proficient in English (TOEFL: 105/120); basic conversational proficiency in Chinese (completed two university-level courses with A+ and currently advancing).
- **Teaching Experience:** Tutored middle and high school students in English at a tutoring school, volunteered in academic counseling, and worked as a university TA, emphasizing clear, student-centered explanations.
- **Licenses:** Driver's License, First-Class Boat License, Special Boat License.
